

# EDP STARTER

POWERING STARTUPS

# THE PROGRAM

The main objective of EDP Starter Brazil Program 2018 is to promote the **development of Startups in the Brazilian energy sector**, through a 3 month acceleration process with a **scale-up methodology**.

The program **represents an opportunity** for those start-ups showing an **optimum fit with EDPs activity**.

The integration of their technologies and/or business models will be carried out with the **collaboration of experts** in different business strategic lines:

**Cleaner Energy**

**Smarter Grids**

**Energy Storage**

**Support Areas**

**Digital Innovation**

**Client Focused Solutions**

## What's in for me?

- ✓ Possibility of equity investment by EDP Ventures Brazil and Aneel R&D funds
- ✓ Access to EDP's assets
- ✓ Run a Pilot With EDP
- ✓ Tailor-made program to each startup
- ✓ Integrate EDP Starter's ecosystem and global community
- ✓ Coworking space at WeWork JK

## What are we looking for?

**Solutions and Products** that provenly have brought **innovation** to their expertise area, through a new technology or a disruptive business model.

Those **Solutions** must be mature enough to give you the opportunity to transform yourself into a **potential partner** and **get your startup spotted on the map**.

## Timeline

Application	Selection	Bootcamp	Acceleration	Demo day
May 2018	June 2018	July 2018	From May to September 2018	September 2018.
